

SOIL - LAND JURISDICTIONAL BOUNDARY

NATIONAL JURISDICTION

Continental United States

Soil – the top 6 inches of the earth.

50 organic geographically defined States.

INTERNATIONAL JURISDICTION

Federal United States

Land – all the earth below the top 6 inches.

50 incorporated politically defined States.

Designed to interact with the International Jurisdiction of the Sea through the use of the **BAR**.

There is a hard and fast (but not obvious) demarcation between Soil and Land as shown above. There is a similar and very obvious demarcation between Sea and Air, which are clearly two very different jurisdictions, one a liquid, the other a gas. Sea = International | Air = Global.

The Soil and Land jurisdictions are **populated** by people, that is, **Lawful** Persons.

The Sea and Air jurisdictions are **inhabited** by persons, that is, **Legal** Persons (PERSONS), and never the twain shall meet, like the land is separated from the sea (by the **BAR**).

The only interface is located in **international** jurisdiction where Lawful Persons **populate** the Land and Legal Persons **inhabit** the Sea, and they may be converted unlawfully or lawfully, one into the other. Unlawful conversion is the source of much of the world's current problems.

LAND – SEA JURISDICTIONAL BOUNDARY

LAND JURISDICTION

Law of the Land for “State Nationals” based on American Common Law using **Officials** such as Justices, Lawyers, and Jural Assemblies (State Courts).

Note: County Courts are for Natural People of the Soil Jurisdiction using Justices of the Peace.

Operates in international **trade** as an **unincorporated Republic** owed the Constitution for the united States of America.

Populated with biological (DNA) living, breathing men & women living according to law. All births are recorded without certificate, bond or registration.

Upper/lower style John Quincy Adams is his American Trade Name. He provides his **autograph** in **red ink** — and uses stamps not seals when operating from the Land and Soil. He may use **blue ink** if he is temporarily operating on the jurisdiction of the Sea, for doing public records, signing contracts, etc.

John Quincy Adams

His nationality is New Jerseyan, Ohioan, Wisconsinite, etc.

The Definitive Treaty of Peace, Paris, 1783

International Jurisdictions

SEA JURISDICTION

Law of the Sea for “U.S. Citizens” based on Admiralty, Maritime and Martial Law, using **Officers** such as Judges, Attorneys and Clerks.

Operates in international **commerce** as an **INCORPORATED** democracy exercising the Constitution of the United States of America.

Act of Congress: Article I, Section 8, Clause 17.

Inhabited by “citizens” born “missing at sea, and presumed dead,” existing only as corporate PERSONS (contracts / certificates) and legal fictions to be farmed, mortgaged, taxed and warred upon.

This is the **legal** system of the sea jurisdiction as opposed to the **lawful** system of the land. It uses ALL CAPS, seals and **blue ink**.

While drawn from a number of international customs, treaties, and agreements, modern law of the sea derives largely from the United Nations Convention on the Law of the Sea (UNCLOS), effective since 1994.

The Law of the Sea is the **public** law counterpart to Admiralty/ Maritime law which applies to **private** maritime issues, such as the carriage of goods by sea, rights of salvage, ship collisions, marine insurance, and disputes among private parties, such as individuals, international organizations, or corporations.

AIR – LAND – SEA JURISDICTIONAL BOUNDARIES

AIR JURISDICTION — Global

[corporate – municipal Persons]

WASHINGTON DC [military]

The Municipality of Washington, DC is set up as a plenary oligarchy run by members of the Municipal United States Congress under Article 1, Section 8, Clause 17. It is an independent, International City State created under a Municipal Charter doing business as “the” United States, run in turn by a Municipal Corporation, doing business as the Municipal Corporation of the District of Columbia. The District of Columbia itself is meanwhile operated as a Territorial Democracy doing business as “the” United States of America.

Operates under a Municipal Charter [A]

[incorporated - chartered]

AMERICA

CITY OF LONDON [financial]

The Temple Government operated by Westminster, the so-called Inner City of London, which is an independent International City State and part of the Municipal Government of Rome under the Roman Pontiff aka the Holy Roman Empire. The Sea Courts — Territorial and Admiralty are for the use of Legal Persons and are operated by members of the Bar Association* known as Bar Attorneys.

* Depicted in this presentation as **BAR**

Operates under a Municipal Charter [B]

Administers
Law of the Sea (territorial)
Admiralty Law (commerce)

SEA JURISDICTION
International - Legal

[incorporated – territorial - fictional Persons]

LAND JURISDICTION
Sovereign — Lawful

Soil = National [unincorporated – living people]

Land = International [corporate – living People]

VATICAN CITY [corporate]

The Municipal Jurisdiction is Global in nature and is organized as separate Municipalities that operate as International City States[A][B] and charter all the fully incorporated commercial corporations. Municipal Jurisdiction is also called the “Empire of the City”, meaning Rome under the auspices of the Holy See, and since 1929, Vatican City, which has set up and operated all the Municipal Charters on Earth. Church = ecclesiastical & canon laws.

Administers & operates under
Municipal Law (secular)
Ecclesiastical Law (holy)
Canon Law (holy)

Crown Temple

City of London
