

WHAT IS PATTERN?

Patterns are like the source code of the Master Universe. They encapsulate the intent and purpose of the act of creation, but not the execution. The execution of a Pattern, from Paradise to the last Outer Space Zone is largely the jurisdiction of the Architects of the Master Universe and the Creator Sons.

0:6.10 PATTERN can be projected as material, spiritual, or mindal, or any combination of these energies. It can pervade personalities, identities, entities, or nonliving matter. But pattern is pattern and remains pattern; only copies are multiplied.

0:6.11 Pattern may configure energy, but it does not control it. Gravity is the sole control of energy-matter. Neither space nor pattern are gravity responsive, but there is no relationship between space and pattern; space is neither pattern nor potential pattern. Pattern is a configuration of reality which has already paid all gravity debt; the reality of any pattern consists of its energies, its mind, spirit, or material components.

0:6.12 In contrast to the aspect of the total, pattern discloses the individual aspect of energy and of personality. Personality or identity forms are patterns resultant from energy (physical, spiritual, or mindal) but are not inherent therein. That quality of energy or of personality by virtue of which pattern is caused to appear may be attributed to God — Deity — to Paradise force endowment, to the coexistence of personality and power.

0:6.13 Pattern is a master design from which copies are made. Eternal Paradise is the absolute of patterns; the Eternal Son is the pattern personality; the Universal Father is the direct ancestor-source of both. But Paradise does not bestow pattern, and the Son cannot bestow personality.

11:9.5 Paradise is not ancestral to any being or living entity; it is not a creator. Personality and mind-spirit relationships are transmissible, but pattern is not. Patterns are never reflections; they are duplications — reproductions. Paradise is the absolute of patterns; Havona is an exhibit of these potentials in actuality. Source: Urantia Book.

Any consideration of the I AM and the Pre-Thought Sphere can only offer the most basic overview since even the highest Deities have a limited understanding of this great Initiator of the Master Universe.

USES FOR PARADISE PATTERNS

While the uses for Paradise Patterns may be unlimited we offer the following example of Pattern usage.

The first Slice in each new Paradise Pattern Series is used for building a Macro Master Universe, shown in green. Its functionality is different from the remaining Patterns in the Series since it acts primarily as a container for the remaining Patterns of the Series. All other Patterns of the same Series are contained and executed within this first Pattern.

The second Slice of a Series is used as the Pattern for the Central Master Universe (like the one in which we now exist), which when completed will become the Macro Paradise for the Macro Master Universe.

The remaining Patterns of the Series are used to create Micro Master Universes, shown in yellow, within the Macro Pattern.

Both Premotion and Pre-Thought are retained within Unpervaded Space and only the Premotion plan for this Master Universe was compressed into Paradise leaving the Pre-Thought sphere in place. Later the Father-Infinite will encapsulate the sphere as shown in the MASTER UNIVERSE - CIRCUITS diagram.

The Paradise Patterns for the future are retained as Premotion slices within the Pre-Thought Sphere. As the next Paradise Pattern will be ready to be used it will be placed in Unpervaded Space where it will be mated to its Functional Absolutes prior to birthing out through the Premotion Doorway.

CREATING A NEW SERIES & SLICING A SERIES OF PARADISE PATTERNS

For clarity the amount of pole shift is greatly exaggerated in this diagram. In reality each pole shift is of an infinitesimal amount.

Each Series of Paradise Patterns begins with a new orientation of the poles with the Premotion Core as the pivot point, as represented by the shifting green line.

Once the new pole positions are set, the process for slicing a Series of Paradise Patterns is repeated.

All Paradise Pattern Slices are identical in size and method of extraction, but they differ in execution because they bisect the Sphere longitudinally at different angles. All unused Patterns are stored until they are needed.

The Pre-Will of the Father-I AM is tethered to the center of each disc or Paradise Pattern and forms the Primary Premotion Circuit, and it is through this Circuit that all future Master Universes including Micro and Macro Master Universes are both initiated and powered.

These Pattern Slices are all completed Pre-Motion or before the Father takes Action and are unaffected by the emergence of existential reality as they are part of Pre-Reality.

Each Paradise Pattern Series forms one unique level, or one complete Macro Master Universe in the Infinity of Infinities.

Co-existent Deity first differentiated within the Pre-Thought Sphere concomitant with the Premotioning (slicing) of the Paradise Patterns. This is why full pre-personal, self-identification cannot occur until the birthing of the completed and combined Subsequent Thought / Cause as a new I AM, where it is then initiated by the Father-I AM in the Infinitude thereafter beginning its own self-motion as a Co-equal, Co-existent Deity.

Below: As the Slices progress longitudinally around the full 180 degree arc, they form the Micro Master Universe Patterns that go with the Master Pattern of the Macro Master Universe in that Series.

For clarity the amount of axial rotation for each Slice is greatly increased in this diagram.

UNIVERSE SYMBOLISM

The Master Universe deploys nearly countless symbols and types, many of which can be directly observed from within the material realm. There are also other forms of symbols and typology which can only be discovered through revelation. At the very root of this approach lies the very simple Macroscopic / Microscopic concept.

THE HUMAN DIMENSION OF THE MASTER UNIVERSE DESIGN

The Master Universe is a splendid material creation defined by many layers of Spiritual Truth. These Spiritual Truths are gradually being uncovered as the Master Universe evolves towards its destiny of becoming a gigantic Paradise and the centre of the future Macro Master Universe and the many Micro Master Universes it will contain to become the creative homes of the new composite I AMs to be created in the far distant future.

The Ununiversal Father wishes to reveal Himself to all His creatures, whether spiritual, morontial or material, through His magnificent creation of the Master Universe and beyond, but how are we to understand what this mortal-human-finite life represents on the grandest of scales? What are we humans symbolic of? What great symbolic mysteries are contained within our material bodies and mortal lives?

Let's start at the beginning, the Isle of Paradise and the Central Universe, also known as the Paradise-Havona system.

The Paradise-Havona system is represented in our mortal human lives as the female ovum and male sperm, with the ovum representing the female aspect of creation, the I AM, and the sperm representing the male aspect, the Universal Father. Additionally, the I AM and ovum = pattern, and the Father and sperm = potential.

The Superuniverse zone is represented biologically as a foetus. This is the embryonic stage of life and likewise the Superuniverses are the embryonic component of the Master Universe.

The First Outer Space Zone is the next area and level of growth in the Master Universe plan and design. Our mortal evolutionary lives encapsulate this stage as infancy. Infancy is defined here as that time from physical birth to the time the Thought Adjuster arrives as a result of the new human having accomplished the seven Adjutant Mind Spirits.

The Second Outer Space Zone is the next area and level of universe growth. Human life represents this as the stage of childhood. Childhood is defined here as that period of time starting when the Thought Adjuster arrives and all the way through the pre-pubescent stage.

The Third Outer Space Zone is the next area and level of universe growth. Human life represents this as the stage of teenhood, the adolescent years, or the time from the beginning of puberty to the time the physical body ceases growing, or the onset of adult life.

The Fourth Outer Space Zone is next and is represented in human life as adulthood, the time when transformative growth has stopped and ever deeper degrees of maturity are accomplished.

The Fifth Outer Space Zone is the next level of growth in the Master Universe plan and design. One significant aspect of this level will be the creation of Functional Absolutes and is symbolized by humans as the marriage of a man and woman.

Micro Master Universes is the next level of growth beyond the current Master Universe. These Micro MUs will be created by new I AMs. These new I AMs will be created by combining Functional Absolutes (male) with new Paradise Patterns (female). This is represented in human life and culture as husband and wife conceiving and giving birth to a new baby and starting a family.

A Macro Master Universe is the first Paradise Pattern in a new Pattern Series and is used as an organisational master pattern for extending creation beyond the original Master Universe and containing the future Micro Master Universes. The human analog for this aspect of creation is the profound spiritual union called the Union of Souls. It is the highest spiritual achievement of two mortals.
