Opening

PRAYER: Mother and Father, we are here to collaborate with our Magisterial Son and our celestial helpers in the furthering of the circuitry for the mission to materialize here on the material level. We are grateful to participate with you and Him in this endeavor. We ask to be encircuited as one in your WILL, heart to heart, soul to soul, Spirit to Spirit. May the energies we provide be put to good use. May your WILL be done now. Thank you.

Lesson

MONJORONSON: Greetings, one and all! This is Monjoronson, and I am pleased to join you in this circuit of co-creation in the WILL of our Paradise Father. A divine dispensation is a major undertaking on any evolutionary world but even more so upon Urantia for all of the reasons you well understand. The Correcting Time is designed to bring about a change in consciousness to help you in your spiritual development as well as to comprehend higher universe principles that foster the evolution toward the era of Light and Life.

You are in the throes of the Correcting Time now. It is a major undertaking on this world to bring about these changes in your consciousness to render you more spiritually receptive and to foster a moral quickening within the hearts of all humanity. It is to this end that the Magisterial Mission is poised to materialize at some point in time upon this planet, and we are grateful for your participation to help us to build these circuits in your planet's consciousness for this to occur one day.

So as we continue to collaborate and co-create together in today's session, I ask you to hold these words, the MAGISTERIAL MISSION in your heart, feeling your desire for this to occur here at the

physical level—for my presence to be among you in physical form and for my staff to also be here to work with you to bring about more planetary transformation.

As we begin feel your own desires to participate in this mission in whatever ways the Father Within is guiding you. As usual, we focus on you as individuals before we move into the collective. Turn your attention inward to your own desires as you hold these words the MAGISTERIAL MISSION in your heart as we move in you now, my beloved brethren. (Pause)

It is normal and usual for each evolutionary world to receive divine dispensations. Had your world not strayed from the divine plan you would have had a variety (normal) divine dispensations including a Magisterial Mission, but your world is not the norm as you well know, and in keeping with the theme of the Correcting Time, your Father Michael has provided you with this next dispensation as a gift to help you on your return to the divine trajectory, moving you into the era of Light and Life. It is difficult for the humans of this world to understand what it means to have a divine dispensation. It is challenging for humans to commit to the actions of what this means. We are here to foster your reception, to prepare a variety of men and women who are capable of collaborating with us and to communicate higher truths to your brethren wherein they may come to understand what it means to have a person hailing from the higher realms walk as one with you.

This does not mean this will be an easy task. There will be much disbelief, suspicion, and even envy by your brethren who do not yet appreciate what this means, but that is not your concern. We are here to help you become further integrated with the circuits of the Magisterial Mission that you may perform mighty tasks of faith on our behalf and construct your minds more into the circuits of the Planetary Supreme that you may cooperate with us more fully. Continue to receive as we help you receive these ministrations of the energy of the mission to upstep you and expand you in Michael’s plans of correction. (Pause)

There are many who long for divine intervention on this planet but they look at it from the standpoint of a quick fix—a wave of a wand (as you might say) to make everything beautiful, but this is not the case. Spiritual work is effortful and it requires a persevering dedication to a noble cause that will bring about its successful acceptance for the world at large. This has never occurred upon Urantia. You see what has happened to the other dispensations and how the energies of the rebellion have thwarted them. Do not let that deter you for this mission will not fail, but it takes time to prepare the world to receive this and to understand that it is only through human cooperation and participation that this will be successful.

I am here to assure you that when the time is right I will be among you. I will walk with you and greet you as a brother, and you will find new spiritual refreshment in me to give you more of that spiritual stamina you need to minister your brothers and sisters who may harbor great disbelief and suspicion in what is transpiring. So fortify yourselves in Spirit, in me, and in the mission that you may remain strong and steady when the time comes. Continue to receive. (Pause)

Let us now turn our focus into the planetary collective circuits. In your mind’s eye focus the words the MAGISTERIAL MISSION over the planet. Project that line of energy from your heart feeling your desire for this to take deeper root in the circuits of your consciousness. The Seraphim of your planet are collaborating with us now. There is much spiritual energy being infused into your focus.

What we ask of you is to feel your desire and your intention to participate in this monumental undertaking now.

Let us apply these circuits of light to reach deeper into the circuits of your planet's consciousness going into various constructs where this energy is very much needed. If it is helpful, you may use the visualization of spiraling the words around the planet in that familiar counter-clockwise rotation. But what we require most is your love and your desire for Michael's plans of correction to take deeper root in these circuits for your brothers and sisters to be uplifted. (Pause)

It is a glorious time upon your world when so many changes in the energies of your consciousness are changing. Truly you cannot see how your consciousness is being altered and upstepped to the higher realms, but little by little you notice evidence in your material culture. What you are waiting for is a larger ground swell of these energies to uproot all that is evil and misaligned with the Father's WILL. This is growing and building now but it does take time. This uprooting process can be very disturbing to human consciousness, and Michael in His LOVE, MERCY and COMPASSION for His children wants everyone to receive what they need that they may choose of their own free will the higher path of love and service.

The more you co-create with us in these circuits of consciousness, the more this ground swell expands, and this wave of LOVE becomes stronger and embraces more hearts and minds to the Father's WILL and WAYS. Continue your focus upon the planet as we continue to bring more spiritual energy into these circuits of the MAGISTERIAL MISSION. (Pause)

Now you may focus on any area, geographic region, situation or circumstance where you would wish the MAGISTERIAL MISSION to have more momentum and placement. As you have done in the past we will follow your gaze wherever you focus and add what we can. Take your time as you do this mindfully, heart-fully, and with great faith and trust in what we are sharing and providing to you now. (Pause)

The weaving of hearts together as one is beautiful to behold. There is much spiritual effort being applied into this fabric of ONENESS so that each person may open to its potential of what it is designed to foster in the human heart—in the expression of love and compassion, mercy and forgiveness in human relationships. The world is awakening and there are many who are ready to participate with us. It is a time to celebrate that the hand of Michael is moving upon the planet preparing the world for its next divine dispensation of my mission here.

So elevate your gaze to Paradise with us as we stand for our Paradise Father in worship and gratitude for His plans of evolution—His ways, His LOVE pouring out upon Urantia and changing the course of its evolution and its history. Never before has so much been done for a planet to help it turn its course in the divine. Never before have so many individuals been called to awaken to the Spirit Within. Let your hearts swell with gratitude to the Father for all He is doing through each man, women and child now, for Michael's plans of correction and the action of your Holy Mother Spirit. Let us join together as one in this circle of worship.

Father, receive our thanksgiving as we come before you. May your LOVE bathe this world and every heart of every living being, for it is your LOVE that is the center of all life. And we thank you

for your outpouring of it now into the hearts of these men and women who are here to serve you, love one another and heal this world. We hold them up to you in our appreciation of your LOVE growing in them in this ONENESS of the fabric of LIFE. May your WILL be done as it is on Paradise so it is upon Urantia. (Pause)

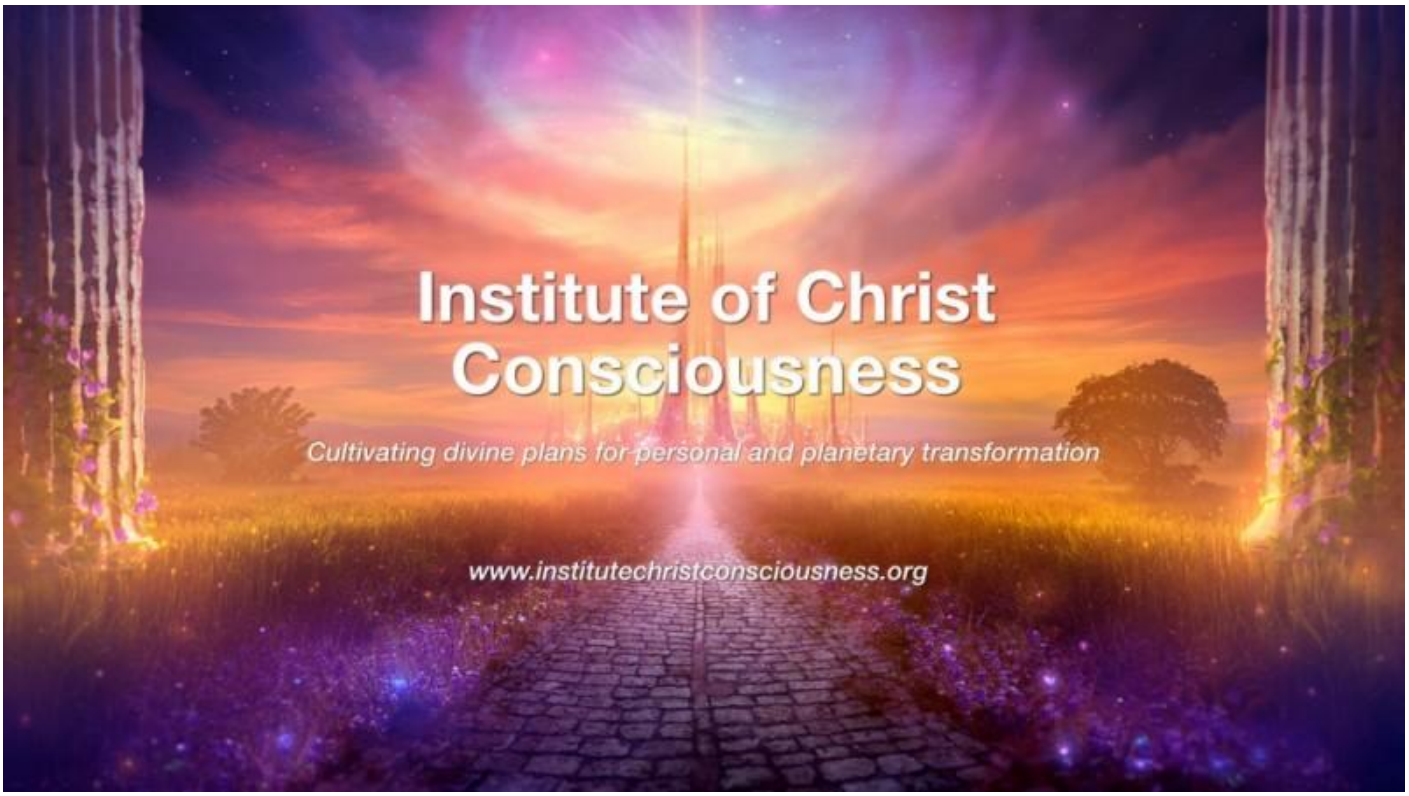

May the LIGHT of Paradise shine upon Urantia, returning all to the bosom of the Father, and may each person thrive in the Father's LOVE, MERCY and GOODNESS. (Pause)

Return your focus to Urantia now and see the words the MAGISTERIAL MISSION pulsing upon the ground. As you have done in the past, you may take these energies and plant them more deeply into the soil, letting these words penetrate down, down, down to the core of the earth where the original intention for Urantia resides. May the GLORY of Paradise infuse this circuit. May Michael's plans of correction infuse the core that it may expand outwardly and rise to the surface and feed more of the minds and hearts of all Urantians.

As you do this with great love in your heart, feel your desire for Paradise GLORY and Michael's plans of correction to move in the circuit of the Magisterial Mission to help more to awaken to what it means to have a divine being walk as one with you—loving you, guiding you, nurturing you upon the path of attaining evolutionary perfection. (Pause)

Closing

On behalf of the celestial hosts, I thank you. May you blossom in this time of great change and transition! May the Father's presence within illuminate your hearts and minds with the GLORY of His LOVE and the promise of the fulfillment of your spiritual potential! Strive to do His WILL each day, my brethren. Be gentle with yourselves and others as more changes part the ways of evil and shed more LIGHT and LOVE, TRUTH and GOODNESS into Urantian consciousness. Call upon us when you are in need and do your part each day to prepare the world for my coming. Good day!
