Topic: Harmonizing Human Consciousness and Planetary Life with the Universe

T/R: Donna D'Ingillo

PRAYER: Our Paradise Creator Deities, Divine Parents, Magisterial Son, and all of those who are involved in the transformation of our planet, we thank you for attending this call today and helping us at the human level hold those frequencies that will promote more healing and spiritual growth on the planet. We thank you for weaving us together as one through the various dimensional circuits on the planet and at the spiritual level, that what we produce from our hearts may add into the spiritual vitality all around the globe. You know exactly where we are in this great transformational process, and we thank you for guiding us today that what we are all contributing to is for the higher purposes of this planet's evolution. Thank you for this opportunity to be of service and is always, may your WILL be done through your MERCY and GRACE. Thank you.

MICHAEL: Greetings, my beloved children! This is Michael. Take a few moments to center yourselves in me through your Spirit of Truth. Invite my presence to hold you steady and strong, preparing you to hold these new frequencies that we will be imparting not only into you but into the planet as a whole.

Many of my children all of this world are very upset and concerned with the world events transpiring. It is certainly a time for many individuals who have not yet awakened to the truth to be somewhat trepidatious in what is underway now. I say to you, my children, stay close to me. Remain in your hearts and be at peace, for what is underway will pave the future to unfold that is in keeping with the divine plans of rehabilitation that have been formulated to bring this planet back to LIFE.

As you focus on me now, feel that need to be fortified with faith, peace, courage, strength, and wisdom so that you may ride out this storm unimpeded by what is transpiring at the material level. Receive me now, my beloved children and allow my presence to strengthen you. (Pause)

There are new energies of the higher dimensions streaming into the planet at this particular phase of its evolution. These are necessary enhancements to provide all life here on the planet to open

and conform to the higher universe ways of LIFE. As you allow me to minister into you, feel that willingness and intention to grow stronger in these divine attributes I share with you. This is a time when the promise of spiritual growth is the most ripe. It is common for many people to bemoan what is occurring, and those who do not have a spiritual perspective will suffer the most. But for those of you who have turned to the TRUTH within, there is no need to fear. I am with you. I am with you as this world continues to open and calibrate to the higher universe ways of LIFE. You have long awaited this time when change is most propitious to bring about the greatest good for all.

If you wish, and if it is easier to receive me, simply focus on these words: I AM HARMONIZING WITH MY FATHER MICHAEL. I AM HARMONIZING WITH MY FATHER MICHAEL. I AM HARMONIZING WITH MY FATHER MICHAEL. Hold this as best you can that I may expand my attributes into you to foster your inner stability and give you greater peace and trust in what is unfolding now. You cannot always see the biggest picture of what is transpiring, but you can be anchored in faith to guide you through this period. Continue to receive. (Pause)

As my children, you have every right and ability to imprint upon my divine characteristics I offer them freely and fully to you. It is simply a matter of you turning your attention to me that you receive what I wish to provide to you. In this particular moment, ask me to impart to you that quality or characteristic you need from me that is a unique need in you. Where do you need shoring up in your psyche? Take a few moments to consider what you need and certainly ask your Indwelling Spirit to reveal to you where you can place your focus in coming to me. There is no need that I cannot fill, so open yourselves and drink deeply of my essence and substance, my precious children. (Pause)

As you fortify yourselves in me, know that there is spiritual energy and vitality percolating within you and strengthening in your ability to perceive from the Spirit and to maintain more spiritual control in your life. The additional benefit is that as you grow in my attributes, you begin to naturally demonstrate them to your brothers and sisters, and you radiate a certain spiritual essence to them that they need that they may not be able to obtain on their own.

We have told you about this radiating principle and have encouraged you to practice this, especially when you are engaging with your brothers and sisters, to focus on me, to ask my presence to radiate outwardly from your heart that your brothers and sisters may at some level, whether it is conscious or not, receive a great infusion of LIGHT and LIFE. I encourage you to practice this more consistently each day, no matter with whom you engage because the time is upon you where your brothers and sisters who have not yet awakened will be called into this dynamic.

There are many changes of a spiritual nature that can be produced on this world when more of my children are more aware of who I am and my role in their lives. I look to you as my precious sons and daughters to represent me well to your brothers and sisters, to minister to them with patience and kindness. Do not fear their outward expression of emotions. Invite me to strengthen you that you can withstand what they are spewing out of their anger and frustration. As my presence grows in you, you will be able to better maintain a stronger emotional base within yourselves that of a spiritual nature, and be able to withstand their own spiritual immaturity and then feed them with

more love and peace that will register in their hearts, especially when they have exhausted themselves of their emotional inner turmoil. This may not be easy for you to hear, but you are well prepared to do this my children. I ask this of you because you know of the sufferings of your brothers and sisters, and we recognize that you would wish to see them well and whole and growing in their own spiritual integrity, and this is what you can provide to them.

Therefore, as your Mother and I continue to minister to you, I invite you to focus on the system of human consciousness and hold these words: HARMONIZE WITH FATHER MICHAEL, HARMONIZE WITH FATHER MICHAEL, HARMONIZE WITH FATHER MICHAEL to radiate into the entire human system of consciousness, even down into the deep memory circuits within the body. Hold this as best you can with great love in your heart for your brothers and sisters that they may experience a new value of Spirit grow in them. We continue. (Pause)

Invite the action of your Holy Mother Spirit to move into the circuits of mind and memory, providing more LIGHT and SPACE for your brothers and sisters to harmonize with me and to grow in their own godly natures. (Pause)

Invite the human system of consciousness to now HARMONIZE WITH THE UNIVERSE CIRCUITS OF LIFE. (Pause)

If it is helpful to maintain focus, direct your gaze towards these words: HARMONIZATION OF HUMAN CONSCIOUSNESS WITH THE UNIVERSE. HARMONIZATION OF HUMAN CONSCIOUSNESS WITH THE UNIVERSE. HARMONIZATION OF HUMAN CONSCIOUSNESS WITH THE UNIVERSE. As you hold this as best you can in your mind, focus the energies from your heart into the planet that all may feast upon the LIFE energies coming from the very core of our beloved universe home. (Pause)

The circuits within human mind are ready to receive a larger amount of what you might call LIGHT information. In terms of your own human finite natures, you might consider that the universe ways of LIFE are so vast that the human mind cannot fully contain all of this information at its present stage of development. There is what you might consider elasticity within the human mind that is able to stretch beyond present known boundaries and capture higher information that is necessary for, not only human development, but for the evolution of all life here. It is challenging for the human mind to imagine what this might look like because it has never been experienced before. However, in this infusion we are preparing what you might call the elasticity in human mind to strengthen to become more resilient and buoyant as new truths, new concepts, new ideas are introduced.

Continue to focus on HARMONIZATION OF HUMAN CONSCIOUSNESS WITH THE UNIVERSE so that we may continue to conduct the necessary changes for this expansion in human consciousness to occur, even down to the most subtle levels in the mind body circuitry that is such a vast part of this planet's overall system of function. (Pause)

Invite the life circuits of the natural world to also harmonize with the universe. See these words in your mind's eye and project them from your hearts: HARMONIZE PLANETARY LIFE WITH THE UNIVERSE. HARMONIZE PLANETARY LIFE WITH THE UNIVERSE. HARMONIZE PLANETARY LIFE WITH THE UNIVERSE. We will continue to conduct the expansion in the areas with the greatest need.

(Pause)

The larger construction of the plans of rehabilitation is now underway. I invite you to focus now on bringing these two aspects of planetary consciousness together: HARMONIZE HUMAN CONSCIOUSNESS AND PLANETARY LIFE WITH THE UNIVERSE. HARMONIZE HUMAN CONSCIOUSNESS AND PLANETARY LIFE WITH THE UNIVERSE. HARMONIZE HUMAN CONSCIOUSNESS AND PLANETARY LIFE WITH THE UNIVERSE. Hold this focus as best you can, project it from your hearts into the planet before you and let it spiral around the globe, counterclockwise, north to south pole, as we bring the planet into a greater coherence with its rightful place in our universe family. (Pause)

My beloved children, you are gradually moving into the higher awareness of who you are as universe citizens embarked on an eternal ascension journey. Your career will take you into the far reaches of the universe one day and even beyond into the higher levels of creation. For now, allow all of these dynamics to integrate, and as they do, join with us now as we elevate our focus to Paradise and the Creator Deities who have put in place this marvelous plan of ascension for you to experience, relish, and cultivate. Join with me now and with all of our helpers as we spend some moments together in gratitude for what has been given for all of us to experience life and let your heart swell with love and thanksgiving and receive the DIVINE EMBRACE from Paradise. (Pause)

If it is helpful, focus on your Spirit. Thank the Father for this DIVINE GIFT living within you, and then receive His gift of LOVE in your soul. (Pause)

If you wish, see yourselves standing on the earth plane but you are still connected to the Paradise reflection upon this world. Invite the Paradise energies to blend with the universe circuits that all life here on Urantia may harmonize with the divine plans of evolution. There are stages and phases of growth for you as an individual and for the planet as a whole. In holding this focus for the unification of the PARADISE AND UNIVERSE ENERGIES, stand tall in your divine inheritance and know that you are mighty son and daughter of God, and you are growing in your ability to become more God-like in thought, word, and deed.

Do not fret if you make a mistake because you are still in a human body and you are still very much influenced by it. I encourage you to love your body and yourself more, that these higher circuits may continue to integrate and help you express from the depths of your soul the GOODNESS and GRACE of the Father within you. It is all coming together now in this one vast plan of correction. You are some of the mighty players making these changes within yourselves and acting as trailblazers for your brothers and sisters to open to their spiritual potential.

Invite all of these dynamics to integrate deeply, completely, repletely throughout the planet that all may join in this great celebration of this world coming back to LIFE and the glorious abundance of LOVE and LIGHT. (Pause)

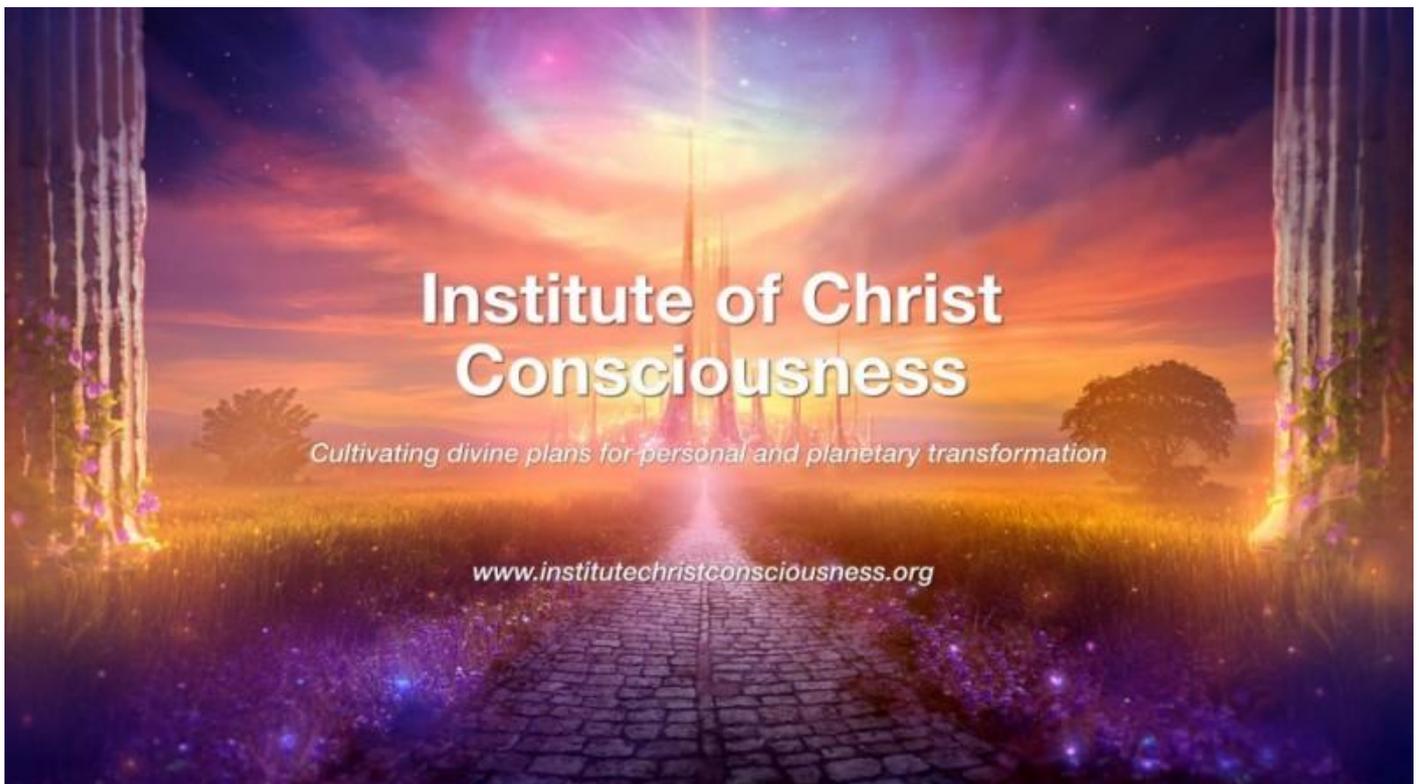

My beloved children, I thank you for your faith. I thank you for your perseverance through this massive time of change upon this world. You have demonstrated many fruits of the spirit to your brothers and sisters. Please continue to do so now more than ever. Become more patient and tolerant of them and know that they are trying to make sense of what is occurring on this world. Sometimes all you can do is be a friendly listener and let them express what is on their hearts and

minds. But now, as you do this, there is a mighty spiritual dynamic radiating in you and that their Spirit can pick up on that energy and translate it into their minds and to quell their emotions and elevate them to more truth.

This is your sacred task now, and even though you have been charged with this prior, I encourage you to take this on more devotedly, consecratedly, and with a full awareness that what you are doing is indeed leading this planet out of its past and into its glorious destiny.

So, as we end this collaboration today, know that these dynamics are all integrating now in opening new portals of LIGHT and SPACE and TRUTH and LOVE into the human heart and that you have played your part well today. We are deeply grateful for your participation, and as we leave you in this way, know that you are always connected. It is just a matter of you turning within and saying: "Father, provide me with what I need that I may become a more valuable member of this Correcting Time and to feed by brothers and sisters with the spiritual energies they need."

Let all these energies settle into you now, and bring you into a heightened awareness of what you can accomplish during this auspicious time and know I am with you always and forever. May you ever and increasingly experience my presence supporting you. Thrive in my LOVE and PEACE. It is yours. With that, I leave you and the greater LOVE of the Father. Good day.
