Topic: Integrating Human Consciousness with the Consciousness of the Natural World — Mother Urantia

T/R: Donna D'Ingillo

PRAYER: Our Paradise Creator Deities, Divine Parents, Magisterial Son, and all of our planetary helpers and universe brothers and sisters, we welcome to our call today. And thank you for guiding us in the areas where we can produce the most good that will aid in the planetary reclamation and rehabilitation. You know where we are in the various phases that we have been undergoing, and we ask you to provide the insights and guidance so that we can co-create in your DIVINE WILL for the higher purposes of this planet to expand, awaken, and reconcile in human consciousness and bring us into more cosmic understanding who we are as children of God and our rightful place in the grand design of LIFE. Thank you for this opportunity to be of service to our world. And as always, may your WILL be done through your GRACE and MERCY.

NEBADONIA: Greetings, my precious children! This is your Mother Nebadonia who speaks! There are many changes underway on Urantia now. Some you are seeing at the material level. There are others that are soon to be revealed that will bring you much hope and joy and encouragement for the future.

Today, I invite you to focus on your beautiful planet — Mother Urantia. The natural beauty of this world is mesmerizing. It takes you into a place of awe and wonderment of the power of nature. The natural world is full of intelligence, that which you may call “consciousness.” And it is my desire today for my children of this world to receive more of the connections to the natural world, to your Mother Urantia, that you may benefit from what the world wishes to teach you of the divine ways of life that are a part of the natural composition of this planet.

To begin, I invite you to focus in your heart. As you do this, imagine that you are standing on the earth in the most beautiful you can imagine. Life is ringing all around you. There is music in the

air, in the trees, in the plants, in the soil, in the water. You are all connected to it. Envision that your feet are grounded into this rich fertile soil full of nutrients and information. Let your toes wriggle in the rich topsoil, and begin to invite the energies of the natural world to flow upwardly into your bodies, your minds, providing you with another element of what you need that will help you open to deeper dimensions of the natural consciousness of the planet. Take a few moments to imagine this in your mind's eye, as I move in you now, my beloved children. (Pause)

As you receive from me, also focus on your love for Urantia and the natural world. Let your own love for this world amplify the energies that you are now receiving, and grow! (Pause)

If it is helpful for you to focus, allow these words to flow through your mind: I AM INTEGRATING WITH MY MOTHER URANTIA. I AM INTEGRATING WITH MY MOTHER URANTIA. I AM INTEGRATING WITH MY MOTHER URANTIA. Feel that willingness to become more one with the natural world and the intelligence contained therein. (Pause)

You might consider Mother Urantia as another one of your Mothers. The mothering energy of LIFE is part of the divine design to support the natural growth and evolution of human consciousness, feeding your intellects and souls to conform with the natural ways of the divine laws of LIFE. You are reconnecting to a dimension of intelligence that has long eluded many Urantian minds. This is now being restored to you in new ways for you to understand many principles of how the action of DIVINE WILL pervades the planet, not just the natural world and human consciousness, but you might say, the combination and synergy of the impersonal and personal levels of life.

As you focus on integrating with Mother Urantia, hold that intention to open up to new ideas and concepts about your relationship with the natural world. Your Spirit will help you understand what is coming into you over time. What I ask of you is to feel a need to become more closely connected to your planetary Mother. She is so beautiful and so willing to feed you. So, in this infusion today, soak in this energy. Feel your need for your human bodies be fed with what Mother Urantia is providing you now. Relax your mind. Do not engage at the intellectual level overmuch, but receive as children from your beloved planetary Mother. (Pause)

Integrating into Mother Urantia takes you into a deeper dimension or quality of MOTHERLINESS. What does it mean to be a mother? It is a quality of nurturing and caretaking, devoting oneself to the advancement of LIFE in its various dimensions. Urantia has paid a heavy price by being devoid of this very important and vast quality of MOTHERLINESS. As you continue to integrate into Mother Urantia, see yourselves standing in a field of energy with the divine meaning and value of MOTHERLINESS also embracing you. That your consciousness may be more attached to this divine endowment and help you become a greater caretaker of LIFE — not just your own lives, but that of the planet, your brothers, and all life here. Allow these various forms that you envision to integrate into you, bringing you in a more tightly-knit field of interconnectedness that you may deepen in your understanding of the beauty, symmetry, harmony of your relationship with the natural world and its innate intelligence. (Pause)

As you know, human consciousness is changing. A massive restructuring of Urantian mind is breathing new LIFE into it from the universe and Paradise levels. The massive reconstruction underway is providing you a new spiritual foundation upon which the citizens of this world will build

a better civilization for all life here. Part of this is reconnecting to the natural world and learning what it wishes to teach you. Living in a highly material and technological environment has taken you away from perceiving what the natural world wishes to teach you. There are lessons upon lessons, patterns and designs in nature that all evoke a particular aspect of the nature of Deity. When you commune with nature, ask your Spirit to instruct in those lessons so that you can perceive more of the patterns and designs of LIFE that will be highly instructive and very satisfying to your curiosity.

It is important now for you take more time to connect with the natural world for the circuits are now in place for human consciousness and the natural intelligence of the planet to become more uniform and unified. Here is where you can take more responsibility for learning the ways of the MOTHERLINESS — the nurturing on the planet that all humans need to perceive that this world may truly be a garden of GLORY in representing the MAJESTY and BEAUTY of Paradise.

Yes, this is possible! I am not suggesting that this will happen in your lifetime. Keep in mind that the era of Light and Life is also an evolutionary progression, and one day this planet will be reflective of the Paradise GLORY and GRANDEUR. You are on your way, and the more you open up to the natural intelligence that you need for your minds and bodies for this planet to heal, great changes can then be conducted, because humanity is ready to take more responsibility to heal this beautiful world and make it a place of beauty and peace once again.

Let my words deepen into your hearts and souls, my children, and continue to connect with Mother Urantia and allow her to feed you. (Pause)

Let us now turn our attention to help your brothers and sisters connect with the natural intelligence of the planet's consciousness system. In your mind's eye, see the world before you. Project these words from your hearts: INTEGRATE HUMAN CONSCIOUSNESS WITH THE CONSCIOUSNESS OF THE NATURAL WORLD. INTEGRATE HUMAN CONSCIOUSNESS WITH THE CONSCIOUSNESS OF THE NATURAL WORLD. INTEGRATE HUMAN CONSCIOUSNESS WITH THE CONSCIOUSNESS OF THE NATURAL WORLD.

As you have done so many times before, spiral the words around the planet, north to south pole counterclockwise. Invite the energies to move deep, deeply into the memory circuits, deeply into all areas of human mind and body consciousness that your brothers and sisters may remember their connection to the natural world and its beautiful interconnected intelligence. (Pause)

Invite Mother Urantia to radiate her JOYFUL SONG OF LIFE into this integration dynamic that this interconnectedness between human mind and the planet may strengthen, expand, and extrapolate into all of the areas where this can produce the most good. (Pause)

Invite the divine meaning and value of RETURN TO NATURAL INTELLIGENCE AND THE GARDEN CULTURE to ingrate into these dynamics. RETURN TO NATURAL INTELLIGENCE AND THE GARDEN CULTURE. RETURN TO NATURAL INTELLIGENCE AND THE GARDEN CULTURE. Invite it to penetrate deeply into memory, bringing people into an expanded awareness of their connection to Mother Urantia. (Pause)

Invite the synergy between the planet's natural intelligence and human intuition to integrate, expand, and grow, feeding human mind with vital information that is necessary for the next stages of planetary rehabilitation. Hold that intention and feel the need for human mind to have greater connections, especially at the intuitive level, to Mother Urantia. (Pause)

Now, it is your turn to be more creative in these circuits of what we are integrating today. Are there areas of the planet, especially in the natural world or its intelligence, that you would wish to see your brothers and sisters have more "bandwidth" to perceive this information? You may, if you wish, pick a few areas in which you are particularly interested to see more positive change occur.

It could be in an area of healing or becoming more connected to the natural medicinal qualities of the natural world. Or it could be that you want your brothers and sisters to have more inner bandwidth to perceive the intelligence that will expand their intuition. Whatever you wish, focus on your heart and feel that desire for the area that you wish to focus on to receive this infusion, and we will follow your gaze and add what we can to enhance the spiritual synergy to produce more good. Take a few moments to do this, or if you wish, you may still remain focusing on integrating these dynamics into Mother Urantia. Use your human will to invite more of these beautiful changes to expand and express throughout the entire system in planetary consciousness. (Pause)

There is one more focus to add. Invite the spiritual and material component of the NEBADON LIFE CIRCUITS to integrate into Mother Urantia. If you wish, focus on these words: URANTIA'S INTEGRATION INTO THE LIFE CIRCUITS OF NEBADON. URANTIA'S INTEGRATION INTO THE LIFE CIRCUITS OF NEBADON. URANTIA'S INTEGRATION INTO THE LIFE CIRCUITS OF NEBADON. Hold this as best you can as we continue to impart more upgrades into the overall planetary system of consciousness. (Pause)

Invite my MOTHERLINESS to engage with all of these circuits, all that we have held together to integrate into the planet. Let this world just radiate in the qualities of DIVINE MOTHERLINESS that heals, soothes, calms, and bring about a new appreciation for what LIFE really means and what it is here to teach you. (Pause)

We are now ready to elevate our gaze to the Paradise level. Open your heart with gratitude and love and willingness for the DIVINE WAYS OF LIFE to radiate and glorify what this planet is truly here to experience. Thank the Paradise Creator Deities for their LOVE and their DIVINE PLANS OF EVOLUTION and feel that willingness for these energies to engage deeply into Mother Urantia, into planetary consciousness of the natural world and the planetary consciousness of the human. Let all of these dimensions integrate and act as ONE in the DIVINE REFLECTION of the UNITY of the Paradise level of PERFECTION. (Pause)

As the Paradise REFLECTION imprints upon Urantia, invite these words to move deeply into all levels: HARMONIZE WITH LIFE. HARMONIZE WITH LIFE. HARMONIZE WITH LIFE. Open yourselves to receive this encoding, and may it move deeply into your entire being and bring you into greater harmony with the DIVINE WAYS OF LIFE, and for this planet to also conform likewise. (Pause)

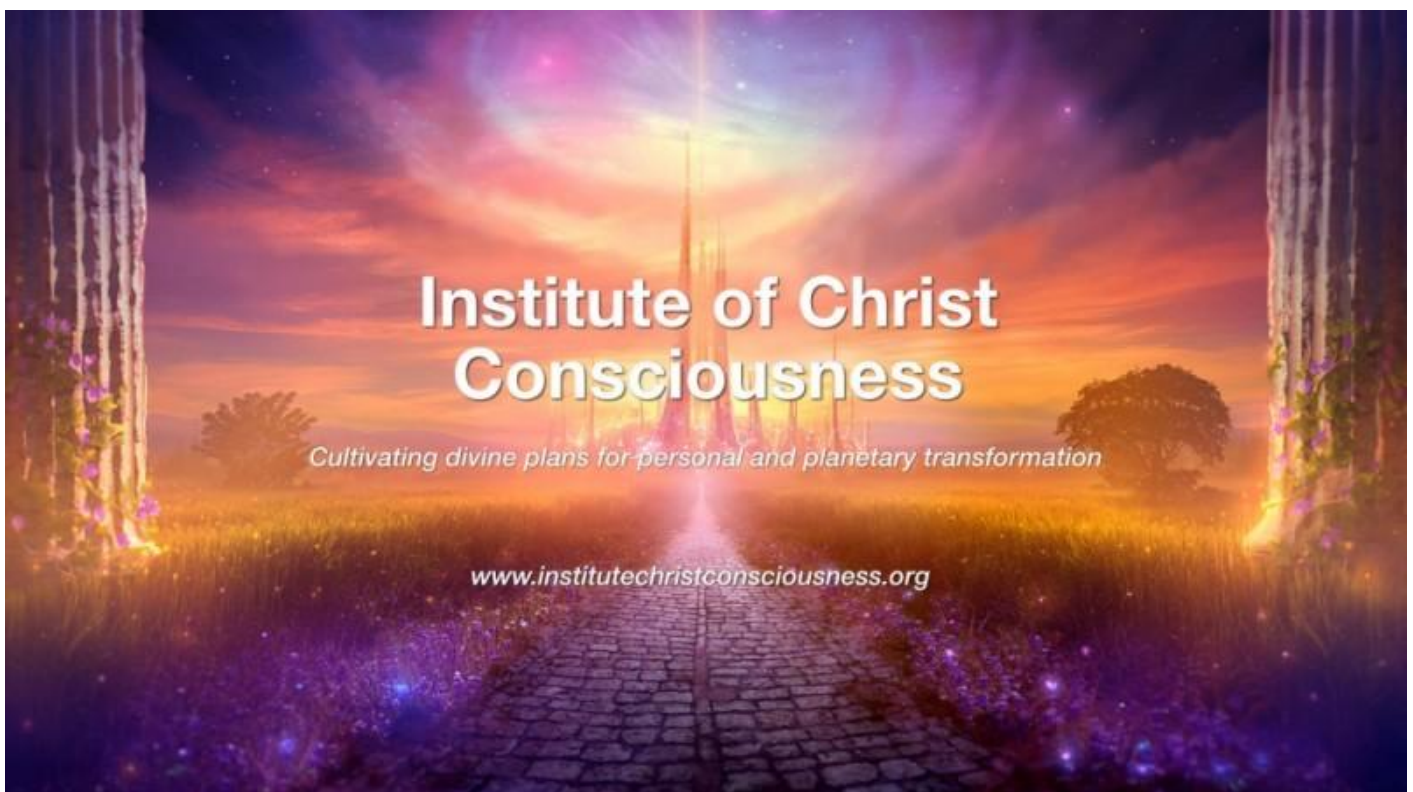

If you wish, you may descend from Paradise yet maintain that connection while you are standing on the ground on beautiful Urantia. Invite the RIVER OF LIFE to flow through you, flow into the planet and bring about this great HARMONIZATION with all life, that human life and the natural

world may truly become ONE. (Pause)

My precious children, we have conducted many changes today. We have brought in new elements for your planet to benefit and for human consciousness to integrate. Remember your responsibility to grow your soul, and also remember to treat the planet with love, reverence, and respect. Do your part each day to make the physical world a better place. What can you do to beautify the planet? Plant a garden? Clean up environmental toxins wherever you see them? Whatever it is, pay close attention to how you treat the natural world so that you can foster greater connection to it and benefit from what it wishes to teach you. This is part of your responsibility to be the caretakers of this planet. When you do this, know that your Spirit will help you gain more synergy to the natural world that you may be more unified with not only the planet but all of the consciousness to learn and grow into the deep, rich information contained within the realms of the natural world.

We have completed our circuitry objectives for today. I thank you for your continued faithful participation in the healing this beloved world. Your Father and I support you in all that you do to produce more goodness, truth, and beauty. Make that a credo to live this way as best you can.

We are all in this collaborative cocreation of bringing the Father's WILL back to life on beloved Urantia. You are a vital part of this massive change. Thrive my LOVE, and always remember that you play this important role in bringing Urantia back to life. Good day, my beloved children.
