The Work of Planetary Transformation

> Everything presented in this document is according to the best comprehension of the mortal participants as it was either discerned through their actual experience, or revealed by the celestial associates involved in this massive project. More details about the Planetary Transformation plan are available on this page: What is the Planetary Transformation?

This planet, Urantia (Earth) is only now coming out of its lengthy phase of rebellion against universe authorities and the Creator Son. In addition, about 2000 yrs. ago our Creator Son bestowed Himself on this planet, which allowed Him to claim it as His own, for His own particular use, and He has special plans for this planet. In the early part of the 21st century, the effects of these two major events from long ago are culminating into a situation that now calls for special and unprecedented intervention by the Creator Son and His vast staff. This intervention is required to bring about two things which are considered part of the Planetary Transformation.

1. **To finish cleaning up and repairing the damage left in the wake of the Lucifer rebellion.**
2. **To begin preparing this planet for the next phase in its evolution.**

Our Creator Son, Michael of Nebadon, who incarnated here as Jesus of Nazareth, has grand plans for this planet. New potentials were actualized in the Local Universe of Nebadon consequent upon the terminal bestowal of Michael as Jesus of Nazareth, and one of these was the new illumination of the path of eternity that leads to the Father of all, and which can be traversed even by the mortals of material flesh and blood in the initial life on the planets of space. The **Institute of Christ Consciousness (ICC)** and the **Truth Beauty and Goodness Commission (TBG)** have been actively participating in various aspects of the Adjutant Mind Circuitry work being carried out on this planet. You can learn more about this unusual work in The Work section.

Through our work on this phenomenal project we have acquired a certain knowledge of these systems which we will attempt to explain. If you cannot make sense of this information do not be alarmed. These are matters which are somewhat beyond normal mortal comprehension.

The **Institute of Christ Consciousness** is involved in the planetary circuitry repair of the human spirit-mind-body continuum at the personal and global levels. Due to the rebellion's corruption of

the planet's divine plan of evolution, the synergy between the individual's mind and the planetary mind has lacked the necessary and correct communication pathways that would have fostered a vibrant, healthy, and spiritual enlightened planetary culture.

One of the greatest impediments to human spiritual and soul growth exists between the relationship of Creator-Parent and human child. The planetary rebellion interfered with the concept of Selfhood, disconnecting us from the deep awareness that we originate within the greater Personality/Self of our Creator, and each individual personality/self is a part of this overarching aspect of Deity. The rebels placed many circuits of erroneous language and coding to maintain states of fear and unworthiness within the human mind/memory system. This insidious encoding has been threaded into not only how our minds function, but also into our DNA. The rebels well understood how human mind and body functions, and they did their utmost to instill what could be called "spiritual viruses" to prevent our deep recognition and divine birthright to receive and perceive divine love from our Creator.

The circuitry corrections conducted at the ICC restore the original relationship between human child and Creator Parent. The divine design of humanity originates with the bestowal from the Creator of the image of the higher Personality/Self of the individual as a blueprint for the eternal ascension career. Within the personality/self-structure is the Indwelling Spirit from our Creator which acts as a "thought adjuster" to help human mind perceive the divine inner guidance to cultivate the growth of the soul. The soul is the eternal part of our individuality and grows through our aligning our thoughts, feelings, and actions with what our Spirits convey. The Spirit Within knows the divine plans for the individual contained with the personality/self blueprint and patiently assists the human ward to open to divine guidance and cooperation with the divine plans for first, the human life, and then for the evolutionary ascension to higher states of being.

The planetary rebels could not interfere with our innate divine design that originates at the core of reality — Paradise. However, they did place within human consciousness at the evolutionary level, a myriad of negative codes to deflect the divine inner spark of Deity, and corrupt human mind from operating the way it was originally designed by our Divine Parents, who are our Creators at the time-space level. Now it is time for all of the error to be reversed, for humanity to return to its divine design, and to receive the necessary spiritual light fibers that reverberate and calibrate what is evil and sinful and absorbed into divine Truth.

While the circuitry corrections conducted through the ICC ministry under the overcontrol of many divine personalities and celestial helpers function at two levels — personal and planetary, the process is similar. The microcosm affects the macrocosm and vice-versa. For example, once an individual's mind/memory circuits are repaired and calibrated to one's divine life plans and patterns, there is a ripple effect into the collective mind circuits and adds more spiritual light into the planetary fabric of life. Conversely, the more the planetary mind circuits are cleared of the erroneous programming from the rebellion, there is more light-space within human mind to connect with the higher information streaming into the planet by the divine realms and people have more direct access to their Father Fragments and our Divine Parents.
