Mankind is one big family

There is great significance, in the truth that we are all one family of mankind. I would address you on the
notion of belonging. It is difficult during times of challenge to feel the sense of fraternity when it is perceived by your senses that you are estranged from others, for you are grappling with personal lessons which appear unmanifested in the actions of others. This is an important time for you to pursue the inner belonging with the Father, that purr of perfection within. It is also important to pursue counsel, feedback from your fellows, to eliminate isolation; that solitary trek through your difficulties is unnecessary. Lessons
are learned only by yourself. However, the many helpers about you are always ready to provide guidance, and even when guidance is not available, support is.

Let us realize that belonging can be considered as the two words "be" and "long". You will for eternity be part of the family; never will it just cease to be the case. True, the young children of our Father are often struggling with the sense of singular existence, struggling with what seems to be odds in the world about them. This is only evident on worlds who have lost the guidance that planets unlike yours have. In cases such as the conditions found on Earth, we stress to you the importance of becoming the initiator of the
understanding and the experiential demonstration that you belong to a universe of friends and

fellows who are all part of the Father's family.
