Universe Organizational Charts

The New Revelation Foundation publishes three outstanding organizational charts. Unfortunately that site has not been updated in many years and is now functionning very poorly and all our attempts to contact the owner have failed. These large format charts were designed with an interactive layer that no longer functions with many browsers and portable devices. In order to ensure the preservation of these valuable resources, the Truth Beauty and Goodness Commission has recreated these three org charts as high quality PDF files (without the problematic interactive layer) that can be viewed on any device and with most browsers, and can also be printed on large format printers. These charts are copyrighted material so we make them available to you FOR EDUCATIONAL PURPOSES ONLY in accordance with copyright rules. At the bottom of each PDF chart you will find the links to the originals. If you know the owner of these charts or are the owner, please go to our page How you can be involved and contact us.
