

# Jurisdictional Progress of Civilization

## Notes about this flowchart.

This simple flowchart gives a bird's eye view of the problem of jurisdictional encroachment. This is a critical subject which is covered in greater detail in the [Planetary Jurisdictions Curriculum LESSON 6](#).

# Jurisdictional Progress of Civilization

The growth of civilisation, according to universe law patterned on jurisdictions, demands that mankind earns its sovereignty over each jurisdiction, one at a time, and in accordance with the universal law of merit. This requires adherence to the proper flow of evolutionary progress as depicted in the chart below. The next jurisdiction cannot be earned until the current one has been successfully mastered.

✓ Attainment by merit	? Work in progress	X Failure	Under attack by ⚠ Air ⚠ Sea
-----------------------	--------------------	-----------	--------------------------------

## The correct plan

The plan calls for evolutionary growth uplifted by lawfully revealed guidance. History clearly shows that this peaceful plan was long ago superseded by unlawful Roman and British invasionary tactics that are still ongoing today.

## The incorrect reality

Pre 16<sup>th</sup> century  
Under the Roman  
Empire

Post 16<sup>th</sup> century  
Under the Roman  
& British Empires
