PART 1: What is Pattern?

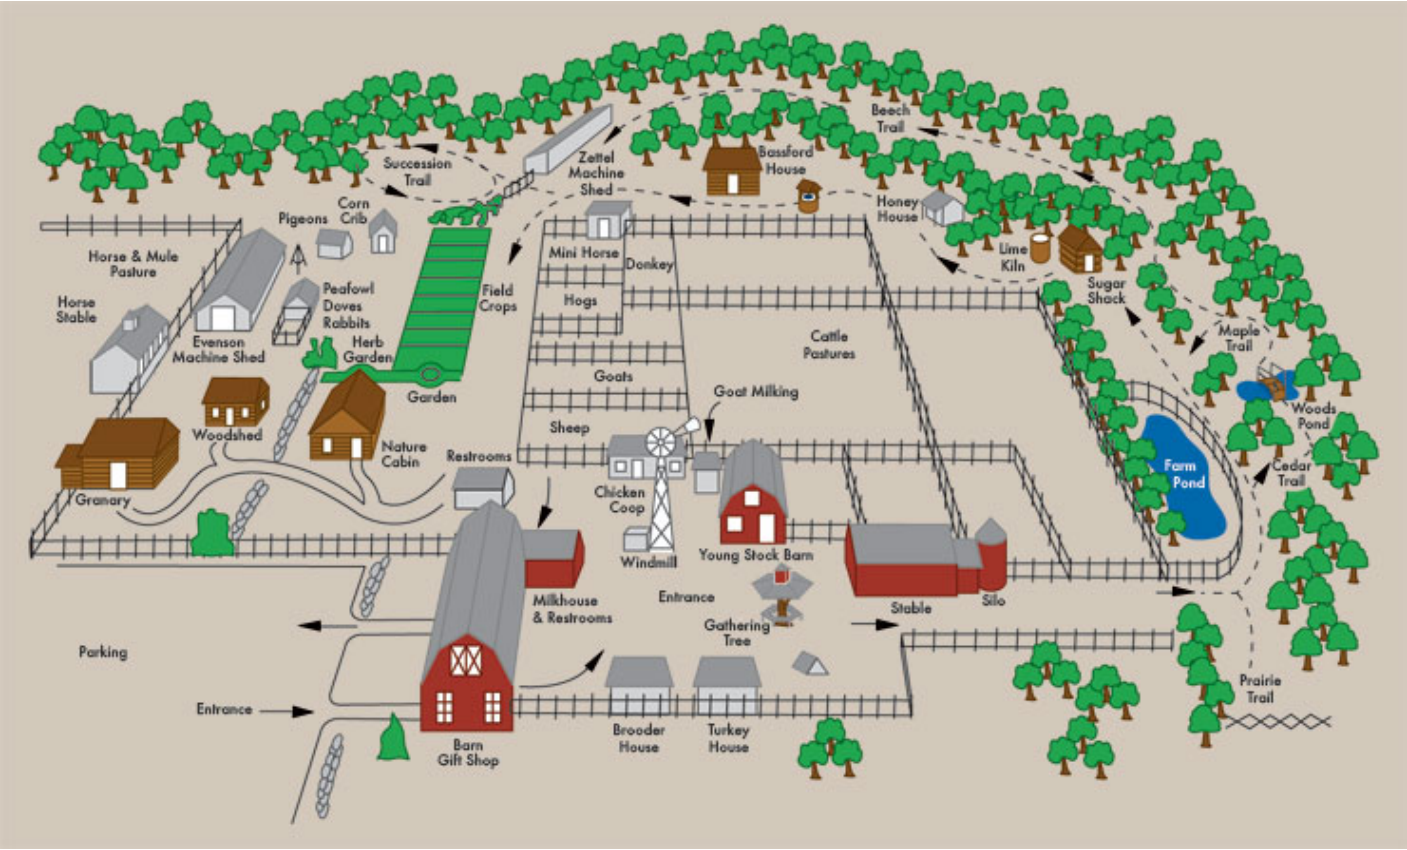
> UB 0:6.13. Pattern is a master design from which copies are made.
>
> UB 0:6.10. Pattern can be projected as material, spiritual, or mindal, or any combination of these energies. It can pervade personalities, identities, entities, or nonliving matter. But pattern is pattern and remains pattern; only copies are multiplied.

Paradise Patterns are the source from which Primary Designs are crafted by the Master Architects according to the mechanics and principles of Ultimacy, and as such are also inclusive of Supremacy.

Each Creator Son was created with a unique personality and skill set. Creator Sons study, modify (downstep) and implement their own copies of source Paradise Patterns according to Supreme variations (700,000 variations) and their unique creative needs.

Whether the creative implementations are Ultimate or Supreme, at the most fundamental level everything is implemented and operated within an assortment of jurisdictions - with specific laws and forms of governance applicable to each jurisdiction.

A simple analogy could be that of a large area of land subdivided into various zones and fenced in areas for pastures, woods, gardens, buildings, and ponds to create a farm. Each zone is like a jurisdiction demarcated by fencing, tree lines, walls or roadways, and each jurisdiction or zone encompasses the basic rules of operation appropriate to its particular use.



There is a primary or master pattern for this plot of land known as the cadastral or land deed that sets the primary demarcation and rules for the land that once developped will house the entire farm development. Everything built within the cadastral is a secondary pattern. It's similar for the universe. There is a master pattern that demarcates or acts as a container for the entirety of the Master Universe, and all secondary patterns are contained within this master pattern. This master pattern and all its secondary patterns together form a **series** of interrelated paterns that constitute the designs for an entire Master Universe.

Patterns are like the source code of the Master Universe. They encapsulate the intent, purpose and core guidelines of the act of creation, but not the execution. The execution of a Pattern, from Paradise to the last Outer Space Zone is largely the jurisdiction of the Architects of the Master Universe and the Creator Sons.

- Paradise is the absolute of patterns;
- Havona is a perfect exhibit of these Paradise potentials in actuality.
- The creations of time and space are the finite working adaptations of copies of those original patterns.

The Pattern of Supremacy is Grounded in Triune Relationships

There is only 1 level of Supremacy composed of 7 primary creative intents personified in the 7 Master Spirits, which are further subdivided into 700,000 variations reflected through the Creator Sons. Supremacy is the approach used by **unqualified Deity** (God the Sevenfold) for creating in the time/space constructs called the superuniverses. From the total perspective of the Master Universe, Supremacy is the embryonic phase of creation. Supremacy is anchored in a subset of the

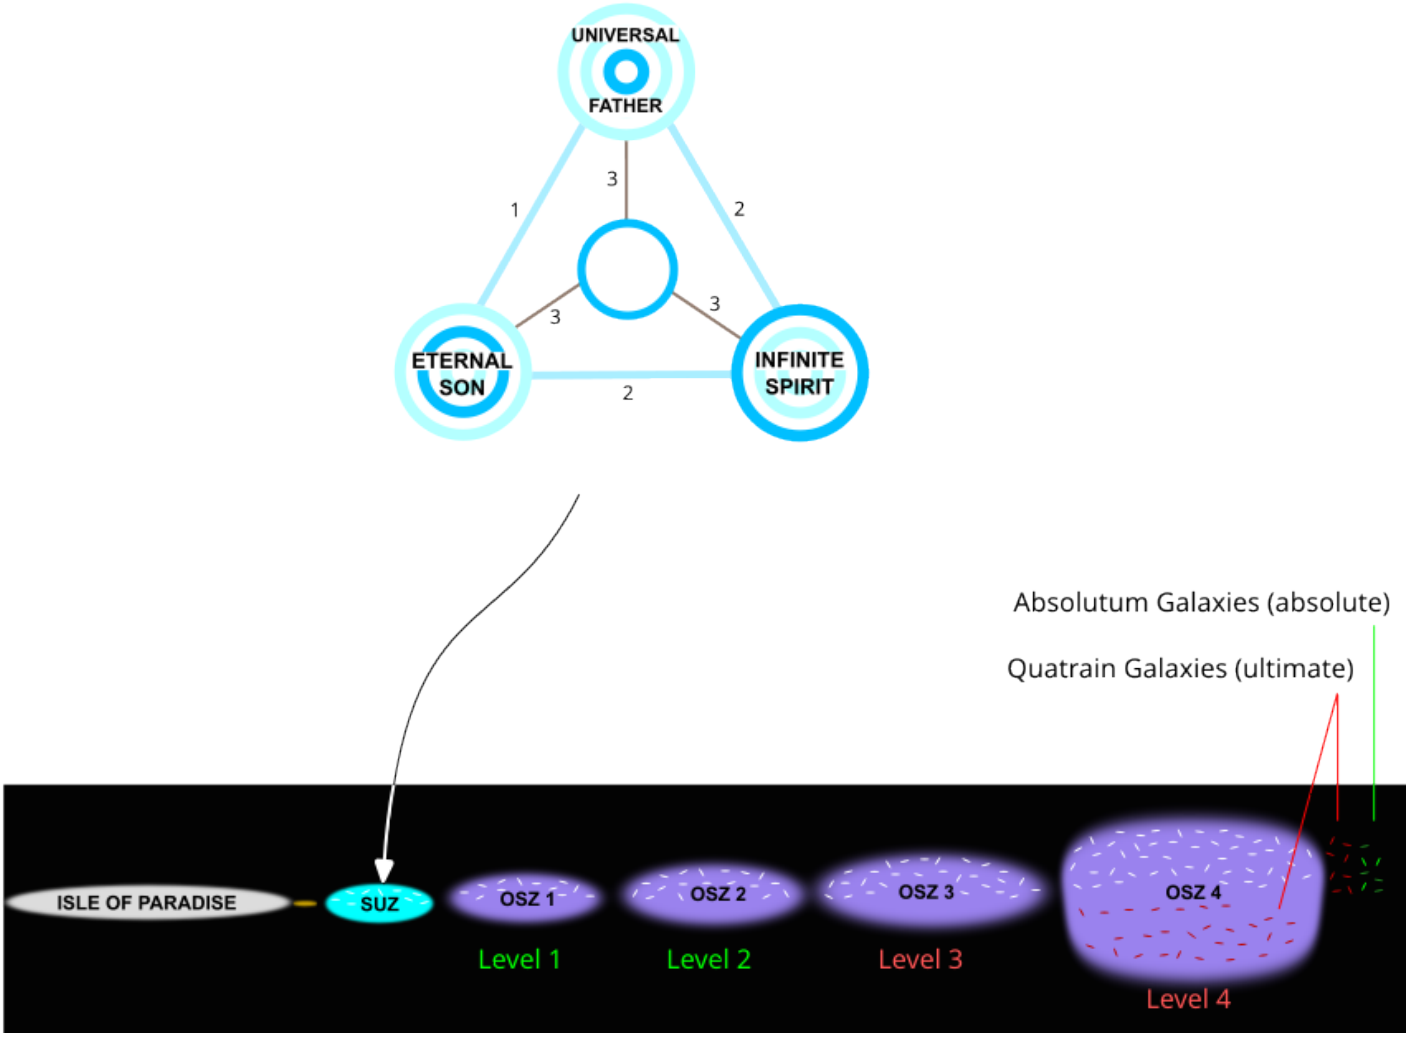
Paradise Trinity referred to as the Trinity of Supremacy.

Concept is inherent in the Father, expression in the Son, and life realization in the Spirit. *UB 36:6.7.*

TRIUNE RELATIONSHIPS

1. Primary relationship: Universal Father + Eternal Son
2. Secondary relationships: Father & Son + Infinite Spirit
3. Tertiary relationships: Paradise Trinity + Trinity Origin Beings

Triune relationships are all contained within the Paradise Trinity. Expressed in space-time as the realm of Supremacy or the embryonic superuniverse zone/level of the Master Universe design.



The Pattern of Ultimacy is Grounded in Quatrain Relationships

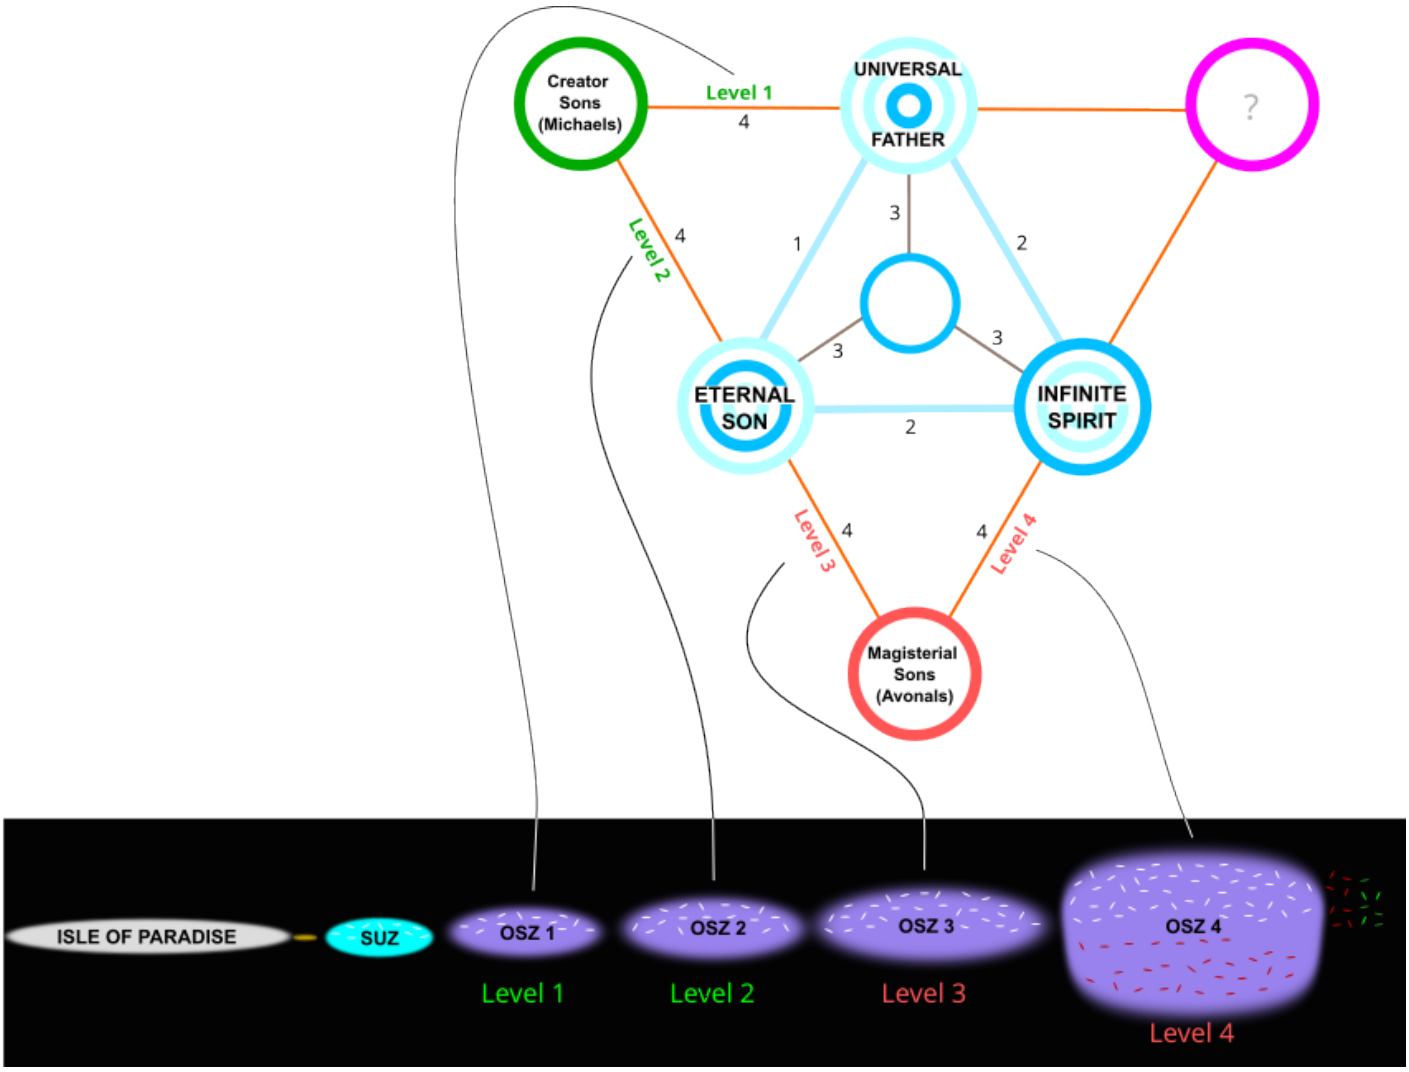
There are 4 levels of Ultimacy. Ultimacy is the approach used by **qualified Deity** (Trinity Ultimate) for creating. Ultimacy, due to its qualified nature, also acts as overcontroller of the Master Universe. The Quatrain relationships of Ultimacy exist outside the Paradise Trinity, patterned as the

4 Outer Space Zones, and is anchored in the Trinity Ultimate (Master Architects, Master Michaels, Supreme Being).

QUATRAIN RELATIONSHIPS

Level 1: Father + Master Michaels (outer space level 1)
Level 2: Son + Master Michaels (outer space level 2)
Level 3: Son + Qualified Avonals (outer space level 3)
Level 4: Spirit + Qualified Avonals (outer space level 4)

Quatrain level relationships all exist outside the Paradise Trinity. Expressed in space-time as the transcendental realm of Ultimacy or the outer space of the Master Universe design.



A note about numbers. We know with reasonable certainty that there will only be 700,000 Master Michaels, but the number of qualified Avonals will be much greater. This difference in numbers appears to correspond to the difference in sizes of the Outer Space Levels. Outer Space Levels 3 and 4 are going to be gigantic compared to Levels 1 and 2. There simply aren't enough Master Michaels to handle Levels 3 and 4, but there will be a sufficient number of qualified Avonals to handle them.
